

Comments on MB Docket #04-233

April 16, 2008

Dear Sirs,

Our family has been fortunate to have the availability of our favorite Christian radio station, K-Love, both here in Alaska and also in our previous hometown of Salem, Oregon. The format is light and moral, the music is refreshing, and our whole family has benefited by the Bible teachings that have reinforced our teachings at home. K-Love doesn't present anything that is new-age or subversive, just good principles from the Good Book. The concerts, seminars, and presentations that they inform the public about are also a necessary and fundamental part of any community. We would suffer if the added regulations of the government were to shut down their programming in our rural area by adding costs and unnecessary burden on a business that has no profit to speak of. We offer these comments of free will, hoping that your committee will draw on the wisdom the Lord has granted each one of you, and please do not press into law the proposed regulations.

Thank you,

Richard and Kathy French  
Palmer, Alaska
